

# The LMS Partner of Choice for State Government.

Managing workforce development is an especially challenging task for state governments, who must meet the disparate needs of diverse organizations beneath the state umbrella. The **Meridian KSI Knowledge Centre™** enterprise LMS suite is a solution perfectly tailored to the specific requirements of training state employees. Deployed in Idaho, Virginia, California, Texas, Arizona, and elsewhere, the Knowledge Centre combines best-of-breed LMS functionality with a full-featured competency management module, seamlessly integrated LCMS technology, and the most robust knowledge management tools you'll find in any enterprise-class LMS.

What's more, the innovative **Domain Manager** enables distinct entities belonging to multi-departmental or multi-tiered organizations to collaborate within a single Knowledge Centre implementation, with unique branding for each department, shared site management tools, domain management functions, and content management and distribution options.
